

Top reasons to protect your trip with travel insurance

Travel insurance is one of the most important items to pack for every trip — here's why.

1 You fall — or fall ill — during your trip.

Even healthy travelers can suffer an unexpected illness or injury on their adventure. Your health insurance may not cover overseas medical expenses — but travel insurance helps ensure you're protected, wherever you are in the world.

Our plans offer primary coverage for emergency medical and dental expenses if a sickness or injury occurs on your trip. And with 24/7 global assistance, our team can help ensure you receive quality care, arrange emergency medical evacuation to a suitable hospital, help return home if medically necessary, and repatriation.

2 You need to cancel your trip at the last minute.

No one wants to cancel their trip, but sometimes it can't be avoided. Accidents, injuries, loss of employment, sickness, or even death of a loved one are all things that might prevent travel. If your plans change unexpectedly, we can help repay the costs of your canceled or interrupted trip for covered reasons.

3 Adverse weather conditions delayed your flight.

Travel delays can upset plans, but they don't need to put a dent in the wallet. If your trip is delayed five hours or more due to adverse weather conditions, travel delay coverage may allow you to be reimbursed for additional accommodations and meals. Our plans can also offer missed connections coverage if the flight delay is at least three hours long and you miss your connection.

4 Your bags are delayed, lost, or stolen.

If your bag is lost, stolen, or damaged — or if it is delayed 12 hours or longer — you may be reimbursed for the value of your lost baggage or for the purchase of essential clothing and personal articles, so you can forget the stress and enjoy your vacation.

5 You lose your passport or valuables.

Losing your passport can be stressful, and determining who to call or where to go can be challenging in another country. Our 24/7 travel assistance services can help you report your lost documents or stolen valuables to local authorities and your nearest embassy. We can also help replace lost prescriptions and passports, make arrangements for an emergency cash transfer should that be required, and help recover out-of-pocket expenses.

6 We're here for you, 24/7.

Our 24/7 travel assistance team is there to help when you need them most.

Whether you need help with prescription replacement, finding the nearest clinic, or support if something goes wrong on your trip, travel experts are on your side. Simply call our assistance number or contact them through the Travel On app.

7 You can customize coverage to suit your vacation.

Road-tripping through Italy? Diving in The Bahamas? Every traveler — and trip — is different. This is why we offer a range of coverage plans and optional upgrades to ensure you get the protection you need.

Customize your plan to suit your budget, travel style, and planned activities — with upgrades for adventure activities, rental car damage, pet care, additional medical coverage, or extra baggage coverage if you're traveling with high-value items, electronics, or sporting equipment.
